As a child I believed in magic, and my wand and brush transported me to a world *Invisible!* The mission that I have accepted with respectful responsibility is to be the brush, using art, to reveal the invisible bridge between Heaven and Earth. The arts, prayer and meditation are vehicles that help us perceive our Divine Self.”

Scientific Testimonials on Jacqueline's Work

Jacqueline's work had been studied by recognized scientists worldwide, such as: Dr. Valerie Hunt, Dr. JJ Hurtak, Dr Vaughn Cook and Dr. Rafael López Guerrero. They all testified that her work involves high vibrations that induce inner peace, healing and lift us to higher levels of consciousness.

Jacqueline Ripstein is, in essence, one of the divine messengers whose visual screens are able to bring forth a scintillating eld of ideographic language, a Rosetta picture that emanates a sense of transformation. Her ability is to draw upon effulgent realities from the past and future express the underlying unity of the consciousness that permeates all realms of Being.

Testimony (c) Dr. J.J. Hurtak, Ph.D. President of the Academy for Future Science

Jacqueline Ripstein's paintings cover a broad spectrum from material consciousness to the etheric and the divine. These are the stimulus to enlighten mind and encourage physical health. To me her versatility and skills represent a frontier direction of art. Her leadership should foster a new school of painting titled "Etheric Surrealism".

But most of all I believe her artistic representations are a grounding light for our evolution, from the chaos of our universe, which will help us to the peace of wisdom. Therefore I truly hope that powerful and enduring than the written word. Her messages carry pervading wisdom.

Rev. Dra. Valerie V. Hunt: Professor Emeritus UCLA, Author, Scientist, Philosopher

Jacqueline has discovered the logic within the Harmonic Oscillators that allows the decoding of all information that flows from the Universe into us through our senses. Our perception expands. When we contemplate Jacqueline's Art, it may seem as if time stops."

Rafael Lopez Guerrero: President & Founder of FET (Fundación EticoTaku for Innovation)

"The effect of Jacqueline's art on each person was different as reflected in the readings. The results were impressive. Her art has a most definite calming, balancing, and healing effect."

Dr. Vaughn R. Cook, OMD, President, Digital Health Corp.

Mission

"My Art is the expression of the Divine Mind, that lives in yours." My life mission as an artist has been to explore and reveal the INVISIBLE realms that reflect the INNER LIGHT BEING & THE UNCONSCIOUS MIND.

Vision

"My deep desire has been to reveal the unseen dimensions and to offer a breath of hope to our humanity."

Jacqueline Ripstein

For me, Art is the inner expression of the Human being. Where the Invisible becomes Visible, I have always believed in magic, my wand and my brush transport me into a hidden world. Art for me is an inner need, that has led me to growth and fulfillment in my life, without it, I would have never succeeded.

The arts taught me to find those hidden places that are hidden to the human eye, but nevertheless are the essence of our true reality. I thank God for allowing me and giving me the inner strength to support me, through so many life trials.

Before I start painting or writing, I light a candle. I dedicate my brush & work to God and I say a prayer. A prayer to uplift humanity to achieve Peace & Love, and to heal our Mother Earth.

When a person has a moment of inspiration, this becomes a moment of transformation. My Art is part of a larger spiritual movement happening now, it's here to feed the needs of the world, it serves for the higher purpose of unity and healing.
